

## The Story of Sooty the Cat

In June of 2012 Cat Tails had a wonderful cat that had a medical condition caused by a severe allergy to the plaque that would collect on his teeth. His mouth and gums were constantly infected and extremely painful. We considered Sooty almost unadoptable, but then a family fell in love with him. They wanted to adopt Sooty, but we were all worried about the painful condition and the cost of future treatment. Paws-Ability raised funds to pay for dental surgery to remove Sooty's teeth. Soft food and he's healthy, pain free, happy and living with a family who loves him! His life is changed.

We love a happy ending and so does Sooty!
